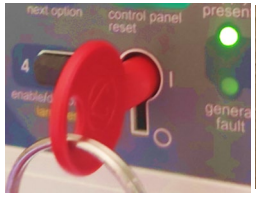
If the Fire Alarm Goes Off


- Evacuate the building, and check all rooms. Call 999 if there is a fire.
- Find the red/white keys which are hanging in the bar under the TV
- Look on the Fire Alarm Panel, see which Zone has been triggered:
  - 1 – Bar, Cellar, Lobby, Upper Ground Changing Room, Rear
  - 2 – Hall, Kitchen
  - 3 – Upstairs
- Put Red key into the panel and turn to ON / 1
- Reset pushed call points using white key – turn clockwise
- Press Red “silent sounders” button
- Press Green “control panel reset” button
- Turn Red key to 0 and remove
- Find triggered detector & report to NCC ASAP
